Recommendation Letter

To Whom it may concern,

Vision Group is a professional public affairs and public relations consultancy specialising in running projects in the area of medicine, pharmaceuticals and public health.

Vision Group demonstrates strong expertise of Polish healthcare system, including the area of pricing and reimbursement. The company provides wide range of communications services, custom-tailored to meet individual needs of its clients.

Working for GlaxoSmithKline, Vision Group has been implementing a communication strategy for the entire vaccine division. This includes day – to – day PR activities, media relations, product – related communication as well as some public affairs activities.

I fully recommend services delivered by Vision Group, a competent and dedicated and communications advisor in the field of pharmaceuticals and public health.
